

“My boots are so hard to take off,” said Chip, as he ran upstairs. “I’m keeping them on.”
“I’ll help you,” said Biff.

Chip put on lots of layers of clothes and went into Biff’s room. Biff had put on lots of warm clothes, too. At that moment, the key glowed.

Food

Plants can make their own food to survive. Animals cannot do this, so they have to eat plants or other animals.

This is a food chain. It shows who eats what.

You will find food chains all around the world. This is a food chain in Africa.
