

4. The most dangerous jobs

Even though today, there are lots of health and safety rules at work, some jobs are more dangerous than others.

Which jobs do you think are really dangerous?
Working as a firefighter or as a stunt performer?

Guess what? Being a builder is far more dangerous than both of those jobs!

Here are some of the most dangerous jobs in the world:

The job	The dangers
Mechanic	Sharp tools, heavy machinery, toxic fumes
Builder/ construction worker	Sharp tools, heavy materials, toxic fumes, heights
Search and rescue	Extreme weather, freezing temperatures, difficult terrain
Sanitation worker	Hazardous and toxic waste
Land mine remover	Explosives
Rickshaw, tuk tuk taxi driver	Traffic accidents, poor road conditions, robbery, violence
Miner	Roof falls, flooding, toxic gas, health problems
