Introduction

Fire keeps us warm and gives us light.
The sun is a giant fire far out in space.

*We use fire
to cook.*

Why did people build castles?

Rich people built castles so they would have somewhere safe to live.

Many castles in Britain were built between the years 1066 and 1400.

Picking a pet

A pet makes a great friend to love, play with and look after.

Choosing a pet is exciting, but choose carefully. All animals need food, water and a suitable place to live. They and their homes must be kept clean. Large animals take up more space and cost more to keep than small animals.

Owning a pet can cost a lot in food and **vet** bills so you can only have one if your parents let you.

Some pets need exercise.

Other pets need special homes.

Once upon a time there lived a girl who was poor but clever.
Her name was Daisy, for she was as fair as a flower.

Every day she watched the handsome king riding by.
"He's so brave!" she thought.

One day, Daisy announced, "I want to marry the king!"
Everyone laughed.
"A poor girl can't marry a king!"

Daisy's father was not as clever as his daughter, but
he wanted to make her happy.
He went to see the king. "My daughter can spin
straw into gold," he boasted.

But he did have his favourite places. One of them was the library.

Every morning when the librarian arrived at work, she would find Tiger on the doorstep.

She'd unlock the library door and he would pad in and make himself at home.

The librarian liked Tiger. He helped to keep all her papers in place.

He helped to hold the door open.

Sometimes he helped to keep out the cold winds. So the librarian was happy to have Tiger in the library.

STORYTELLER: Baby Bear thinks,

BABY BEAR: What I fancy most
Is porridge, Daddy, porridge please.

MOTHER BEAR: Mmm, sounds tasty,

STORYTELLER: Mum agrees.
So using all his cooking skills,
Father heats and stirs and fills
Three steaming bowls,
but then, guess what?
They taste it and ...
