

2. Food

You should pack lots of dried food, like pasta and rice.

There is plenty of water to cook it!

You can catch some fish to eat with your pasta and rice.

You don't need a rod to catch fish in the Amazon.

There are so many fish you will just need a line and some fish hooks.

Look out for piranhas!

You will need to put some wire on the end of your line so their sharp teeth can't bite through your fishing line.
